

REMARKS

Claims 1-19 remain in this application. Claims 1 and 9 are amended herein.

Claims 17-19 are allowed.

Reconsideration of the rejection of claims 1-5, 7-13, 15, and 16 under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. No. 6,269,521 to Gabel ("Gabel") is requested. It is believed that amended independent claims 1 and 9, and dependent claims 2-5, 7, 8, 10-13, 15, and 16, are not anticipated by Gabel for the reasons given below.

Regarding claims 1 and 9, Gabel does not disclose or suggest "a driver having an output shaft that moves about its axis." Instead, as disclosed at col. 3, lines 22-34, and shown in Figs. 1, 2, and 4-6, Gabel discloses a driver 100, such as a gas spring or a helical spring, which has a fixed end 102 secured to the base member bracket 12 and a driving end 104 secured to a guide pin 106 which slides in the slots 28. Gabel does not disclose "an output shaft," *much less "an output shaft that moves about its axis" as required by claims 1 and 9.* Further, Gabel does not disclose or suggest "the output shaft of the driver being coupled to the proximal end of the driving arm." Instead, as disclosed at col. 3, lines 26-30, and shown in Figs. 1, 2, and 4-6, the driving end 104 of the driver 100 is coupled to the distal end 96 of the driving arm 76, *not to "the proximal end" 98 of the driving arm 76 as required by claims 1 and 9.* Accordingly, at least for the foregoing reasons, applicants respectfully submit that amended independent claims 1 and 9, and dependent claims 2-5, 7, 8, 10-13, 15, and 16, are not anticipated by Gabel, and hence withdrawal of the 35 U.S.C. 102(b) rejection thereof is respectfully requested.

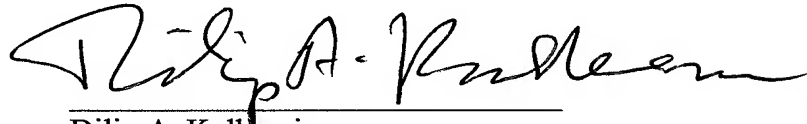

The rejection of claims 6, and 14 under 35 U.S.C. § 103(a) as being unpatentable over Gabel in view of U.S. Pat. No. 6,789,834 to Schlegel is rendered moot due to the dependency of these claims from claims 1 and 9 which are in condition for allowance as discussed above.

In view of the foregoing amendment and supporting remarks, the subject application is now deemed to be in condition for allowance, and such action is respectfully requested. If the Examiner believes that a telephonic interview would expedite the allowance of this application, he is requested to contact the undersigned for a prompt resolution of any outstanding issues.

It is respectfully requested that, if necessary to effect a timely response, this paper be considered as a Petition for an Extension of Time sufficient to effect a timely response, and
